

Sleep Sack Procedure

Per minimum standards, we must have a picture of the exact sleep sack your child uses along with the original packaging detailing the characteristics and description of the sack you bring to our center so that we may collect this for the child's file and to place it with their preference sheet in their respective classroom. This is to ensure that we are precisely following state guidelines and for the ultimate safety of the children in our care.

We ask that you email us a picture of the sleep sack along with your child's name in the subject line to the following email:

truelitelearningcenter@gmail.com

Thank you so much!
